Welcome to

BRYAN
UNIVERSITY

Be Inspired. Be Changed. Be Ready. BU

Bryan University features a variety of programs you can complete 100% online, on your terms and on your time. We offer career-focused programs that are designed for industry.

About BU

Bryan University was founded in 1982 and has been serving students and employers since that time.

Today, **Bryan University offers career path opportunities to those seeking a diploma, an Associate of Applied Science, a Bachelor of Science, or a Master of Business Administration degree.** The goal remains the same now as it did back then: Give you the tools and opportunities to excel in your chosen career.

Our mission is to improve the lives of our students, our team and our employers. We accomplish our mission by providing quality education in an environment that enables our team to thrive and our students to realize their potential, creating a positive impact within our communities

A woman and a child are sitting at a desk, looking at a tablet together. The woman is on the left, smiling, and the child is on the right, pointing at the screen. The background is a solid blue color with a white border around the image. There are two blue squares: one in the top right corner and one in the bottom left corner.

Learning Options and Flexibility

Bryan University offers you a way to earn your diploma or degree with the flexibility you need in your daily life.

Online learning is becoming more and more prevalent thanks to modern technology. All you need is a laptop or desktop computer and a wireless internet connection, and your virtual classroom is available to you any time, anywhere.

All of our programs feature 100% online courses. Work during the day? Log in and attend class at night. Work second or third shift? Have more than one job? Our flexible online learning lets you attend class whenever it's convenient for you.

With online training at Bryan, you don't have to sacrifice one commitment to accomplish another. Our online education system enables you to take care of your family and work obligations while training for a new career. Learn in the comfort of your own home. Online classes work around your schedule!

Nevertheless, it's essential to know that online career courses require self-discipline and a commitment to succeed.

Career Paths

Bryan University's online coursework is relevant, convenient, and accommodating to your schedule and learning style. Our industry-experienced faculty and support personnel will guide you every step of the way to help you complete your training and advance in your career.

Business

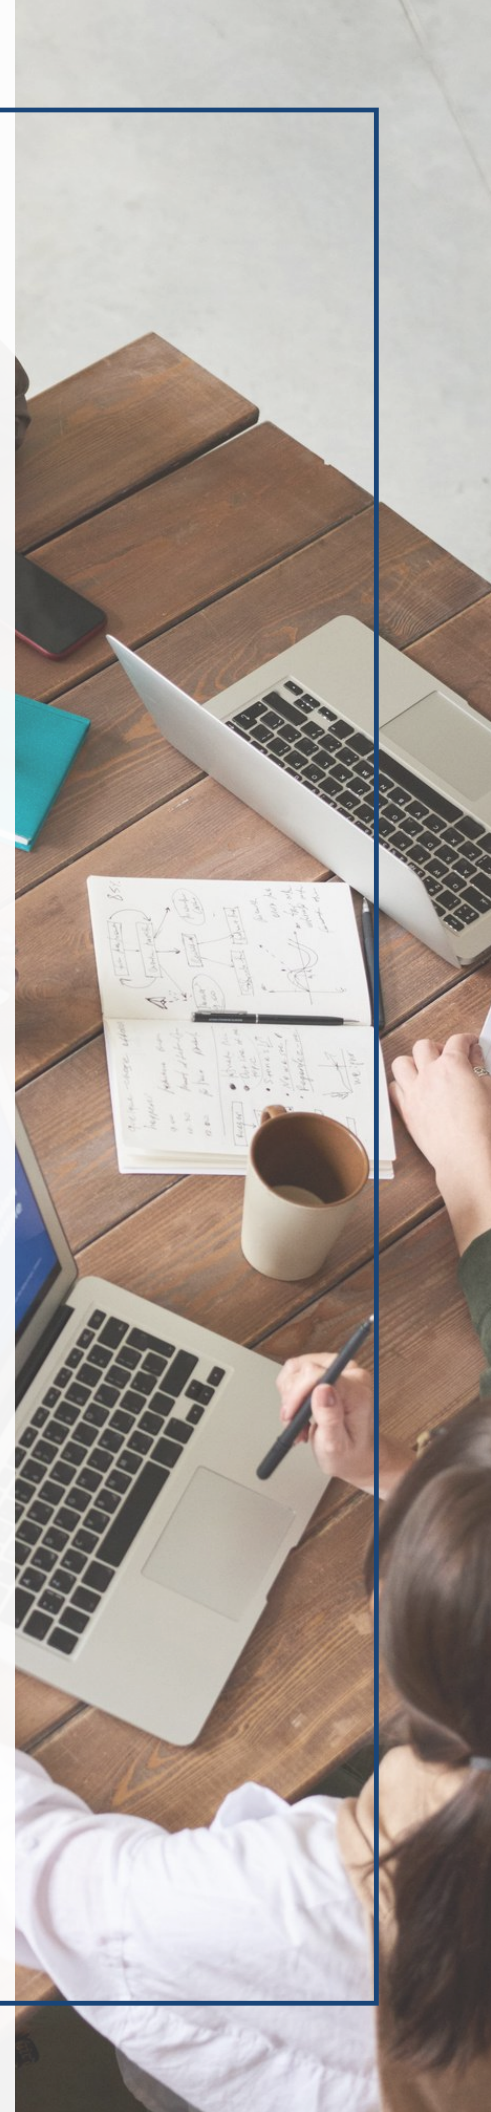

Through online courses at Bryan University, you have the opportunity to broaden your analytical skills and business knowledge by applying the theoretical knowledge you learn in the classroom to real-world business situations. Our program helps you develop skills to manage day-to-day business practices, work towards strategic goals, and help your team succeed.

About

The School of Business offers three programs, including a 70-week Associate of Applied Science degree, a 140-week Bachelor of Science degree, and a 50-week Master of Business Administration. Learn about finance, technology, management skills, business principles, theories, management responsibilities, and day-to-day practices.

Careers

The School of Business gets you ready for a competitive business environment. We help train your mind to develop critical thinking and problem-solving skills so you can make challenging decisions while becoming a proactive team member. Get ready for career skills in management, sales, marketing, or entrepreneurship, among others.

A healthcare professional in blue scrubs is smiling and looking down at a patient lying in a hospital bed. The scene is dimly lit, with a blue overlay. The professional has a stethoscope around their neck. The patient's hands are visible, resting on the bed. The overall mood is professional and caring.

Allied Health

You want healthcare training that is relevant, versatile, and valuable. Bryan University's healthcare training programs can provide you with that and so much more. Our faculty members are equipped to support you and help you advance in whatever allied health career you are pursuing.

About

Bryan University offers a variety of allied health programs in the School of Allied Health, all of which prepare you for work in a practical healthcare setting. Many of the programs in the School of Allied Health prepare students for national certification in the healthcare industry.

Careers

Medical assistants interact with patients on a daily basis, including taking vital signs, checking them into a doctor's office or healthcare facility, and handling day-to-day tasks.

Medical administrative specialists are trained to handle patient information and paperwork that complies with federal privacy laws. Medical billing and coding bridges the gap between healthcare providers and the insurance industry.

Our healthcare administration and allied health management programs get you ready for leadership roles in the healthcare industry.

Health and Wellness

Have you experienced your own health transformation? Maybe you're passionate about helping others become their best through the positive impact of health and wellness. Regardless of what inspires you, at Bryan University you have the opportunity to inspire others through a successful fitness career.

About

Bryan University's School of Health and Wellness offers the student three points of entry into the field of wellness. The Personal Trainer diploma program features 100% online courses that prepare students for the American Council on Exercise Personal Trainer exam. This 40-week program is designed to prepare the student for the skills required to work as a personal trainer in the fitness industry.

The Exercise Specialist program builds on the courses from the Personal Trainer program and expands the student's knowledge with a 135-hour externship in the field as well as general education courses to complete an Associate of Applied Science degree.

The Bachelor of Science degree in Exercise, Nutrition, and Health Promotion builds on all of the courses included in the Personal Trainer and Exercise Specialist programs and develops the student's knowledge and skills in the areas of nutrition, medical exercise, and industrial health promotion. This Bachelor of Science degree program completes the "stack" of health and wellness programs at Bryan University and offers a path to a Bachelor degree in **less than three years**.

School of Trades

Do you have an interest in sustainable energy? Bryan University's Solar Energy Technician diploma program prepares the student for national certification and employment in the solar energy industry. Bryan University is an approved provider for the North American Board of Certified Energy Practitioners. The Solar Energy Technician program prepares the student for the photovoltaic associate certification exam.

Industry Training

An externship at a solar energy firm gives you hands-on experience to put your applied knowledge to use. You'll also work alongside others and gain a foothold for future job opportunities with the relationships you make.

Careers

The solar energy technician program at Bryan University help you apply technical knowledge to real-world situations. You'll learn about photovoltaic markets and installations, safety protocols, electrical knowledge, system components, photovoltaic sizing, electrical/mechanical design, photovoltaic performance analysis, and maintenance and troubleshooting techniques.

This program prepares the student with industry-specific skills in the entire supply chain of the solar industry. Bryan University is an approved provider for the North American Board of Certified Energy Practitioners.

The background of the page is a blue-tinted photograph of a person in a light-colored shirt leaning over a laptop on a desk. In the foreground, the back of another person's head and shoulders is visible. The scene is set in what appears to be a classroom or office environment. The text is overlaid on this image.

Post-Graduation Support and Assistance

Bryan University helps you earn a degree that lets you jumpstart a career shortly after graduation with the convenience of online classes and an open schedule. Our staff provides assistance in career placement thanks to our longstanding relationships with organizations and employers. Check out what we offer graduates of our programs.

Career Placement Services

Here's what you can count on from Bryan University staff:

- Job opening postings for students and graduates
- Career development workshops
- Assistance updating graduate resumes
- Job referrals
- Understanding job search strategies
- Learning how to prepare resumes and cover letters
- Learning interviewing skills

Career Services is your one-stop-shop for connecting with employers, learning how to speak their language, and demonstrating that you have the skills and attitude to be a great team player

Financial Assistance

Bryan University's dedicated Financial Assistance Office puts you in touch with resources to help you fund your education. The road to federal student aid starts with filling out a Free Application for Federal Student Aid (FAFSA) form online. After that, you find how much you may qualify for a Pell Grant, PLUS loans, student loans, or Veteran's Affairs benefits if you served in the military.

How to Get Started

Look over our current catalog and see what program piques your interest. If you attended college for one of these programs before, you may find that some credits transfer to Bryan University. We can help you with that.

We can go over what your first classes will look like, what to expect with a course load, and how soon you can graduate based on your chosen program. That way, you can budget your time to see if a career-focused education and online programs and Bryan University fit your schedule. We want you to succeed at your own pace and at your convenience. Earn a diploma in as little as 40 weeks, or an associate of applied science degree in as little as 70 weeks.
